May 2018	35	0	20449
June 2018	50	0	20499
July 2018	50	0	20549

There were 10 surveillance inspections conducted at 10 different sites for a total of 50 fish sampled this month. Samples are targeted to moribund and fresh mortalities when possible. The water temperatures continued to rise in response to warmer air temps. Routine harvest continued and spring stocking was completed. There were no cages confirmed this month. All of the sites with fish in the water remained Category 1 and were scheduled for monthly sampling.
